

Below is a basic list of items that we suggest that you bring to campus. You are not required to bring everything. You should also include other items that are familiar and comfortable, ie pictures, small plant, etc, which will make the first few weeks away from home much easier. If you're moving to campus from long distance, it may be easier to purchase some of the items on your list nearby. Talk to your roommates before you pack to avoid bringing unnecessary items.
